

Haley Comet

Haley Comet is an intuitive astrologer based in San Diego, Calif. She has been studying astrology for six years and a professional astrologer for two years. As a transpersonal astrologer, she believes in utilizing our free will to co-create our dream lives, in harmony with the energy that plays out within our birth chart. This desire to uplift her clients led her to pursue her Positive Psychology certification from University of Pennsylvania, to learn concrete ways to inspire through the language of astrology. She loves to write, hence why she earned her B.A. in Journalism, with an emphasis in Public Relations, from San Diego State University.
